- Net revenue reached VND 125.207.874.644, up 72,20% year on year, as the Company accelerated the acceptance of completed construction work. In addition, the revenue mix shifted towards projects and work items with higher profit margins than in the same period of the previous year, increasing the gross profit margin from 4,12% to 8,00%.
- Financial income reached VND 326.134.200, an increase of VND 282.254.078, or 643,24%, year on year, mainly due to higher interest income from bank deposits.
- General and administrative expenses increased mainly due to higher salary expenses following an increase in the Company's headcount, partially offsetting the growth in profit for the period.

With the increases in gross profit and financial income, profit before tax reached VND 5.095.547.673, up VND 4.830.459.273 year on year. After deducting corporate income tax expense, profit after tax amounted to VND 4.231.328.197.
